DEVZARD

Outreach Playbook

Who to contact, exactly what to send in English and Urdu, how to qualify, how to handle objections, and the weekly rhythm that produces deals.

Sales Partnership Program · 70 / 30 profit sharing

Devzard — Let's Build Together.

FIELD GUIDE

Outreach Playbook

Who to contact, what to send, what to say when they push back, and what to do every week.

1. Ground rules

You are not selling a website. You are finding a business with a problem that costs it money, and introducing it to the people who fix that problem.

Five rules that keep you out of trouble and win more deals:

1. **Register before you contact.** Always. That is what protects your 30%.
2. **Never quote a price.** "Let me get you an exact figure from the team today" is a complete, professional answer.
3. **Ask more than you tell.** You cannot qualify a lead you have not listened to.
4. **Follow up three times.** Most partners lose deals at follow-up one. Deals are won at follow-up three.
5. **Log every conversation.** If it is not in the tracker, it did not happen — and it cannot be defended if attribution is questioned.

2. Who to target

The best leads share four traits: **they have a visible problem, they lose money by not fixing it, they can decide alone, and they can pay.**

Segment	Why they need Devzard	Entry hook
Restaurants & cafés	No online menu, no ordering, invisible on Google	"Customers can't find you online — a 5-page site with menu + WhatsApp ordering fixes that"
Boutiques & clothing brands	Selling from Instagram DMs, no way to take orders at scale	"An online store so orders stop getting lost in DMs"
Clinics & doctors	No appointment booking, no credibility page	"Patients search your name before booking — what do they find?"
Real estate agents	Properties scattered across WhatsApp, no listing page	"A property listing site with enquiry forms, so leads stop disappearing"
Schools & academies	Fee collection, admissions, parent communication all manual	"An admissions portal that cuts the admin work"
Gyms & salons	Bookings by phone, no-shows, no retention	"Online booking + reminders, so no-shows drop"
Manufacturers & exporters	No catalogue, buyers can't verify them	"A proper B2B catalogue site buyers can trust"
Logistics & transport	Manual tracking, no client portal	"Track shipments in one place instead of 40 WhatsApp groups"
Startups & founders	Need MVP, don't know who to hire	"We build the MVP, you test the market"
NGOs & foundations	No donation page, weak online donor trust	"A donation page with proper reporting"

Segment	Why they need Devzard	Entry hook
Trades & services (electricians, plumbers, AC repair)	Invisible on Google, no quote requests	"Rank for 'AC repair Lahore' and get calls directly"
Existing agencies & freelancers	Overflow work, no capacity	White-label partnership — a separate offer, still worth registering

Highest-value, lowest-friction starts: businesses you already know, in segments you understand. Do not start with cold lists of strangers in industries you have never sold into.

> **Where to look.** Your phone contacts. Your WhatsApp groups — university, family, neighbourhood, professional associations. Your Facebook and LinkedIn connections. Former employers and clients. Your gym, your mosque committee, your kids' school. The shops you visit every week. People you have already met will always beat cold outreach by a wide margin.

---

3. Your network map (do this on Day 1)

Write names against each bucket. Aim for 25 before you contact anyone.

Bucket	How many	Names
Family & relatives with businesses		
Friends who run or manage a business		
Former colleagues and employers		
University / alumni network		
WhatsApp groups I am in		
Current or past clients of mine		
Local businesses I actually use		
Social media connections with businesses		
People who owe me a favour		

Then rank each name **1–3**:

- **3 — Hot.** I know them well, they have a business, they have a visible problem.
- **2 — Warm.** I know them, they may have a business or know someone who does.
- **1 — Cold.** Contactable but no relationship.

Contact every 3 and 2 before you touch a single 1. This is the whole game.

---

4. The five-stage motion

```
FIND → QUALIFY → CONNECT → CLOSE (with the team) → FOLLOW UP & RE-SELL
```

Stage	What you do	Hand-off point
Find	Build the network map, pick a segment, list 25 targets	—

Stage	What you do	Hand-off point
Qualify	First touch, ask 3 questions, find out if there is real need and budget	When they agree to talk
Connect	Register the lead, book a discovery call with a Devzard team member	When the call is booked
Close	Devzard writes and sends the proposal; you chase the decision and keep the client warm	Deal signed and paid
Follow up	Keep the relationship alive, look for the next project and referrals	Recurring

5. Message templates

Adapt these. Copy-paste verbatim and people smell it instantly. Keep them short — WhatsApp is not email.

5.1 First touch — WhatsApp, English

> Assalam-o-Alaikum [Name], hope you're well.
>
> I've started working with **Devzard** — a software house that builds websites, online stores and custom systems for businesses.
>
> I noticed [specific observation — "your menu isn't online", "your site doesn't load on mobile", "you're selling through DMs"]. That's usually costing more customers than it looks.
>
> Worth a 10-minute chat? If there's nothing there, I'll say so and leave you alone.

5.2 First touch — WhatsApp, Roman Urdu

> Assalam-o-Alaikum [Name], umeed hai aap theek hain.
>
> Main **Devzard** ke saath kaam shuru kiya hai — yeh ek software house hai jo businesses ke liye websites, online stores aur custom systems banata hai.
>
> Maine notice kiya ke [specific baat — "aapka menu online nahi hai", "site mobile pe theek nahi chalti"]. Aise cases mein customers zyada nuksan hote hain.
>
> 10 minute ki baat kar lein? Agar kuch kaam ki baat na nikle to main khud keh dunga aur aapko tang nahi karunga.

5.3 First touch — Urdu script

> السلام علیکم [نام]، امید ہے آپ خیریت سے ہیں۔
>
> میں نے Devzard کے ساتھ کام شروع کیا ہے — یہ ایک سافٹ ویئر ہاؤس ہے جو کاروبار کے لیے ویب سائٹس، آن لائن اسٹورز اور کسٹم سسٹمز بناتا ہے۔
>
> میں نے دیکھا کہ [مخصوص بات]۔ اس کی وجہ سے عام طور پر کافی گاہک ضائع ہوتے ہیں۔
>
> دس منٹ بات کر لیں؟ اگر کوئی فائدے کی بات نہ ہو تو میں خود بتا دوں گا اور آپ کو تنگ نہیں کروں گا۔

5.4 Warm referral intro

> Assalam-o-Alaikum [Name], [Referrer] ne mujhe aapse baat karne ko kaha.
>
> Main **Devzard** ke saath hoon — hum businesses ke liye websites aur online systems banate hain. [Referrer] ne kaha aapko [problem] ka masla hai.
>
> Main aapko force nahi karunga — sirf yeh samajhna chahta hoon ke situation kya hai aur Devzard aapki madad kar sakta hai ya nahi. 10 minute?

5.5 Reconnecting with an old contact

> [Name] sahab, kaafi arsa baad baat ho rahi hai — umeed hai sab acha chal raha hai.
>
> Main ab **Devzard** ke saath hoon, websites aur digital systems ka kaam. Aapka business kaisa chal raha hai? Kuch online side pe plan hai?

5.6 LinkedIn / Facebook DM

> Hi [Name] — I work with **Devzard**, we build websites, online stores and custom software for growing businesses.
>
> I came across [company] and noticed [specific observation]. We've solved this for businesses in [their industry].
>
> If it's useful, I can share two examples of what that looks like — no pitch, just examples. Interested?

5.7 Cold email

> **Subject:** [Company name] — [specific observation]
>
> Hi [Name],
>
> I work with Devzard, a software house in Pakistan that builds websites, e-commerce stores and custom systems for growing businesses.
>
> I had a look at [company / page] and noticed [specific, factual observation — one line, no exaggeration].
>
> We've helped similar businesses in [industry] with exactly that. If it's worth 10 minutes, I'll show you two examples and you can tell me whether it's relevant.
>
> Regards,
>
> [Your name] · Devzard Sales Partner
>
> [Phone / WhatsApp]

Keep it under 120 words. One observation, one ask, one link at most. No attachments, no paragraphs.

5.8 Phone call script (first 30 seconds)

> "Assalam-o-Alaikum, [Name]? Main [Your name] bol raha hoon, Devzard se.
>
> Main aapko sirf ek minute lunga. Hum businesses ke liye websites aur online systems banate hain, aur maine notice kiya ke [specific observation].

> Kya aap 2 minute de sakte hain, ya main baad mein call karun?"

Then **stop talking** and let them answer. If they say yes, move to the qualifying questions. If they say no, ask "Kis waqt call karun?" and write the time down.

6. Qualifying — the three questions that matter

Ask these early. If you cannot get clear answers, the lead is not real yet.

#	Question (Roman Urdu)	What you are actually learning
1	"Abhi yeh kaam kaise chal raha hai?"	Is there a real process today, and is it painful? No pain, no project
2	"Agar yeh theek ho jaye to aapke liye iski kya value hai?"	Is the problem big enough to pay for?
3	"Iska faisla aap khud karenge ya kisi aur se poochna hoga?"	Who signs? If it is not them, you need to meet the decision-maker

Must-know before booking a discovery call:

- [ ] Business name and what they actually sell
- [ ] Who decides, and their name and designation
- [ ] The problem in their own words
- [ ] Rough budget signal (even a range: "50k tak? 2 lakh tak?")
- [ ] Timeline — when do they want it live
- [ ] Named contact's phone, WhatsApp and email

Log all of it in the tracker, then message the team: **"Lead ready — book discovery call."**

7. Objection handling

Answer, then immediately ask a question, so you keep control of the conversation.

Objection	Response
"Bohat mehnga hai."	"Samajh sakta hoon. Aapke zehen mein budget kitna hai? Team us range mein kya deliver kar sakti hai woh bata sakti hai — ho sakta hai poora plan na chahiye, sirf pehla step chahiye."
"Baad mein dekhenge."	"Bilkul. Aap kis mahine mein karna chahenge? Main us waqt se pehle follow-up kar dunga, takay waqt pe kaam shuru ho sake." *Then log the date and honour it.*
"Hamara relative/friend bana deta hai."	"Achha hai. Unse ek sawal: kya unke paas [specific thing — payment integration / SEO / mobile speed] ka experience hai? Main comparison nahi kar raha, bas ek 10-min call rakhein, aap khud decide karein."
"Pehle bhi paise lagaye, faida nahi hua."	"Yeh sun kar bura laga. Exactly kya hua tha? … Kaam kya tha? … Theek hai — is baar hum [milestone-based, demo pehle, fixed scope] karte hain, iss liye aap poora paisa ek saath nahi lagayenge."

Objection	Response
"Kya guarantee hai ke kaam aayega?"	"Website ka kaam guaranteed hai — scope, timeline, delivery, sab likha hua. Sales ka result koi guarantee nahi kar sakta, aur jo karta hai woh sach nahi bol raha. Hum pehle ek chhota phase karenge, aap result dekh kar aage barhein."
"Team ko baat karni hai / sochna hai."	"Zaroor. Aap kis se baat karenge? Main unko sirf technical sawalon ke liye call pe bula sakta hoon — usually wohi confusion khatam kar deta hai."
"Believe nahi hota ke aap kar sakte hain."	"Bilkul jaiz baat hai. Main aapko do live examples bhejta hoon jo humne banaye — aur agar chahein to ek free mock-up bhi bana denge, paise se pehle."
"Hamara business chhota hai, humein nahi chahiye."	"Aapka kitna turnover hai? … Iss size pe usually log [specific small thing] se shuru karte hain. Poori website zaroori nahi — ek page bhi kaam kar deta hai."
"Aap Devzard mein kaam karte hain?"	"Nahi — main sales partner hoon. Technical team Devzard ki hai, aur wahi delivery karegi. Main aapka point of contact rahunga."
"Aap kis kesy ho? Main aapko nahi janta."	"[Mutual contact] ne refer kiya" — or — "[How you know them]. Main aapko number de raha hoon, aap team se direct baat kar sakte hain."

Two things never to do under pressure: invent a price, or invent a capability. "Main confirm karke aaj shaam tak bata deta hoon" costs you nothing and buys you credibility.

8. Handing over to the team

Send this in the partner WhatsApp group the moment a lead is ready:

> **NEW LEAD — READY FOR DISCOVERY**
>
> **Business:** [Name]
>
> **Contact:** [Name], [designation], [phone]
>
> **Registered in tracker:** Yes — [date]
>
> **What they need:** [one or two lines]
>
> **Budget signal:** [range]
>
> **Timeline:** [when]
>
> **Agreed call:** [date/time]
>
> **My read:** [hot / warm / just exploring]

The team takes it from there: discovery call, scope, proposal within 48 hours. Your job is to be on that call and to keep the client responding afterwards.

9. Post-proposal follow-up sequence

After the proposal is sent, run this. Do not deviate, do not skip steps.

When	Message
Day 1	"Assalam-o-Alaikum [Name], proposal bhej diya hai. Ek nazar daal lein — koi bhi cheez clear nahi ho to main samjha dunga. Koi jaldi nahi, bas confirm kar dena ke mil gaya."
Day 3	"Proposal pe koi sawal? Scope ya price pe kuch adjust karna hai to bataein — team dekh sakti hai."
Day 7	"Sirf follow-up: aapka timeline kya hai? Agar iss mahine shuru karna hai to hum slot rakh lein, warna main [next month] pe baat karun?"
Day 14	"Kya decision hua? Agar abhi nahi, koi masla nahi — main [date] pe dubara check kar lunga. Agar haan, aapko advance aur timeline bhej dete hain."
Day 30	"Kuch arsa ho gaya — bas yeh dekhne ke liye ke plan badla ya wahi hai. Naya kuch hai to bataein."

Every follow-up ends with **a question or a date**. "Just following up" is not a message — it is noise.

When to walk away: if the answer to three consecutive follow-ups is silence or a clear no, mark the lead **Nurture** and come back in 90 days with something new — a relevant example, a new offer, a price change.

10. Referral and re-sell

The cheapest deal you will ever close is with a client you already have.

Ask for a referral immediately after a win:

> "[Name], project live ho gaya — achha laga aap ke saath kaam karke. Ek chhoti si request: aapke janne mein koi 2 log hain jinko is tarah ka kaam chahiye ho? Sirf naam aur number — main baaki khud kar lunga."

Ask 30 days after delivery, when the value is visible:

> "[Name], website chal rahi hai theek? Koi bhi issue ho to bataein. Ek aur cheez — kya [upsell: online payments / SEO / maintenance] ka plan hai? Bahut clients iss step se shuru karte hain."

Retainers are the real prize. A maintenance or hosting retainer pays you every month for as long as the client stays. Two or three retainers change the economics of your whole month — see Example 5 in the Commission Guide.

11. Weekly plan — 5 to 10 hours

Activity	Target per week
New leads registered	5
First-touch messages sent	15
Follow-ups sent	20
Phone calls	5
Discovery calls held	1–2

Activity	Target per week
Proposals chased	All open proposals
Referrals requested	Every recently delivered project
Tracker updated	Daily, 10 minutes

Fixed rhythms

- **Monday (15 min):** review the tracker. Every lead must have a next action and a date. No exceptions.
- **Wednesday (15 min):** team check-in. What is hot, what is stuck, what needs a proposal.
- **Friday (15 min):** week in numbers. Sent, replied, calls booked, proposals, closed.

12. Numbers to watch

Metric	Healthy benchmark
Replies to first touch	20–30%
Replies → conversations	50%
Conversations → discovery calls	30–40%
Discovery calls → proposals	50–60%
Proposals → closed	20–30%
Overall: contacts → closed	roughly 1 in 30–40

If the numbers are weak, the problem is almost always one of three things: **the wrong segment** (no real pain), **the wrong message** (you talked about us, not about them), or **too few contacts** (the most common cause by far).

13. Do and do not

Do

- Register the lead first, every single time.
- Reference something specific and true about their business.
- Ask three questions before you mention a price.
- Get a date on every follow-up.
- Message the team the moment a lead is ready — speed is your advantage.
- Say "I'll confirm and come back today" and then actually come back today.
- Log the conversation in the tracker the same day.

Do not

- Quote a price, a discount or a delivery date you have not been given in writing.
- Claim a client, a result or a capability Devzard does not have.
- Send the same message to 50 people in one blast.
- Contact anyone on the excluded list.
- Promise a guarantee about traffic, ranking or revenue.
- Keep a lead in your head instead of in the tracker — it is worth 30% of the project.

- Give up after one follow-up. The deal is usually at number three.
